All products supplied have been designed and manufactured in compliance with the Electronic Industry Code of Conduct and ASEM S.p.A. is committed to only source material from environmentally and socially responsible suppliers.

2. Requesting that our Suppliers report immediately if there are any Conflict Minerals or derivatives thereof used in supplied material.
3. Requesting that our Suppliers undertake commercially reasonable due diligence with their supply chain to assure that minerals used in supplied materials are not sourced from mines in conflict areas.

Furthermore, we expect our Suppliers to conduct their worldwide operations in a manner that does not result in labor or human rights violations such as the direct financing of armed conflict in their roles as responsible corporate citizens.
